***Re: Public Records Request received December 27, 2018***

Dear Chris Roberts:

This letter further responds to your public records request received by the Office of the Mayor on December 27, 2018.

Specifically, you made the following request:

“This request seeks records that pertain to the ongoing Navy-led cleanup at the shipyard, as well as the Lennar/FivePoint housing development at the shipyard's former Parcel A, as well as actions or oversight roles taken or held by city and quasi-city agencies and departments related to this prominent project, including but not limited to the San Francisco Department of Public Health and the Office of Community Investment and Infrastructure (OCII). These agencies are not part of the Mayor's Office but it is anticipated that they do interact with the Mayor's Office.

This request seeks any records, including emails, memos, draft emails, draft memos, records of phone calls, text messages, and other communications sent and received by mayors London Breed and Mark Farrell, their MYR office appointees and current or former employees of the MYR office that pertain to the shipyard, including current and former chiefs of staff and advisors, including but not limited to Jason Elliott, Deirdre Hussey, and individuals in the Mayor's Office of Economic and Workforce Development and the Mayor's Office of Housing.

This request also extends to any records that pertain to or were generated by meetings or communications or other interactions by individuals in MYR and other outside agencies, including but not limited to the US Environmental Protection Agency, state of California Department of Public Health and state of California Department of Toxic Substances Control, or private individuals working for entities including Lennar and FivePoint as well as other state, local, or federal elected officials.

The time frame for records sought under this request is from January 1, 2018, to the present.

This request does not seek readily available public documents including press releases and other documents that are already available on the internet. This request seeks only records that are not already readily available to the public.

Suggested keyword searches for fulfilling this request include "Hunters Point," "shipyard," and "Navy," as well as whatever other shorthand terms current and former MYR elected officials, appointees, and staffers may have used to refer to the shipyard project.

Will you provide, in electronic format, records related to the following requests:

\*Records, including emails and any attachments, related to any "Tiger Team" meetings regarding the shipyard;

(The "Tiger Team" was the term used for meetings organized and overseen by the mayor's office that included representatives from agencies including the US EPA, the US Navy, Lennar/FivePoint and other state and local and federal agencies that were directly related to the shipyard project.)

\*Records, including emails and any attachments, of interactions between MYR and employees or representatives of Lennar and FivePoint regarding the shipyard;

\*Records, including emails and any attachments **as well as text messages**, with representatives of Golden Gate Global, including but not limited to former Mayor Willie L. Brown, Jr., a partner of Golden Gate Global, that pertain to the shipyard;

\*Records, including emails and any attachments, of interactions pertaining to the shipyard between the MYR office and any individual at OCII, SF DPH, the US Navy, the US EPA, and the state departments of Public Health and Toxic Substances Control?

This request seeks only records pertaining to the shipyard project, a major redevelopment project that is of great public interest."
